

# Mobility in Retail: The New Standard

Presenters: Jon Padden & Dave Brazeau

## What is CP Mobile?

- Mobile Point of Sale
- Real-time inventory [status](#)
- Real-time inventory [counts](#)
- Real-time [payments](#) via credit card
- Quickly converts to an inventory scanner

## Advantages of CP Mobile

- Easily expand your business
- Enables "cashiers" to be "sales associates"
- Quick set up for instant use
- Allow for superior customer interaction - "break the barrier"
- Line busting - quickly setup as an additional Point of Sale
- Event or seasonal rentals available

## What's the Implementation?

- License fees vary based on commitment
- Hardware – "Sled" and other peripherals
- Secure Wi-Fi or Cellular connection
- Training by LPA Retail
- Counterpoint SQL 8.4.5 or newer

## Tips

- Think ahead to network needs
- Test well before the “big day”
- Register online 2-4 days early
- Use external USB batteries for long sessions

## What's next for CPMobile?

### Upcoming features

- Orders – Sell now, ship later
- Transfers – Balance inventory
- Labels – Quickly re-price and re-label
- PO's – Walking purchase orders
- Receiving – Where it's convenient

Demonstration!
