

Why LPA Retail Systems?

Middle America's **premier** source of Radiant/ NCR Point-of-Sale software and hardware.

Over 300 Stores manage their retail businesses with LPA solutions.

Dependable with over 20 years of business experience

Experienced Staff of industry-skilled technical consultants with retail and accounting backgrounds who understand the unique requirements of retailers.

CPMobile - Customers Love It!

We were recently approached by Linder's Garden Center with a unique challenge. In addition to being a garden center, Linder's offers landscaping services and has 52 temporary pop-up greenhouses during their busy season. Linder's needed a solution to tie all aspects of their business together...without high speed internet access.

LPA Retail implemented CPMobile - a portable Point-of-Sale station. They can now use 25 CPMobile devices, as well as 65 additional Point-of-Sale stations by accessing the network with a cellular router. The best part about this solution, according to Linder's, is that it lets them step out from behind the sales counter to truly connect with customers and run their business more efficiently.

LPA Retail Systems Inc.

Point of Sale Solutions

**Retailer's Rental Solution
Since 1996.**

Rent All-In-One Units

An All-In-One rental system is ideal for retailers with upcoming special events or peak periods but do not wish to purchase additional Point-of-Sale stations.

Rentals Include:

- A Durable All-In-One Computer, Touch Screen & Credit Card Reader
- Cash Drawer
- Receipt Printer
- Laser Scanner

Options:

- Trained consultant at your event
- CounterPoint POS software
- Servers and Routers

“LPA’s rental units provide us the means to quickly ramp up our capacity at a reasonable cost.”
